

## American Subcontractors Assoc. of Western PA

Over the past few years the membership of ASA of Western PA has been growing steadily. The Board of Directors is concerned that the association is staying in touch with what the members need from the organization. This year's Chapter President, Fran Donatelli, asked that this survey go out to the members to get some feedback to guide the direction of ASA in the coming year or so.

Please take a moment to review and respond. You can either edit and save this survey and respond by email, or print it and FAX it back to 724-538-8227.

Thanks for your time and participation.

Is ASA meeting your expectations of what an association should be doing for its members?

What one thing would you like ASA to do for you that is currently not being done?

What information do you find most useful at the meetings?

Who would you want to hear speak if there was only one meeting next year?

What is the biggest problem facing your business year-to-year?
